

What is GENIO Map?

GENIO Map is **EASY** and **SIMPLE** monitoring software to provide small scale monitoring service. GENIO Map displays alarm signals which are sent from GENIO control panel on the monitor screen in a guard room or monitoring room. It enables you to confirm where the alarm event happened visually and dispatch a security guard for onsite check.

Dispatch

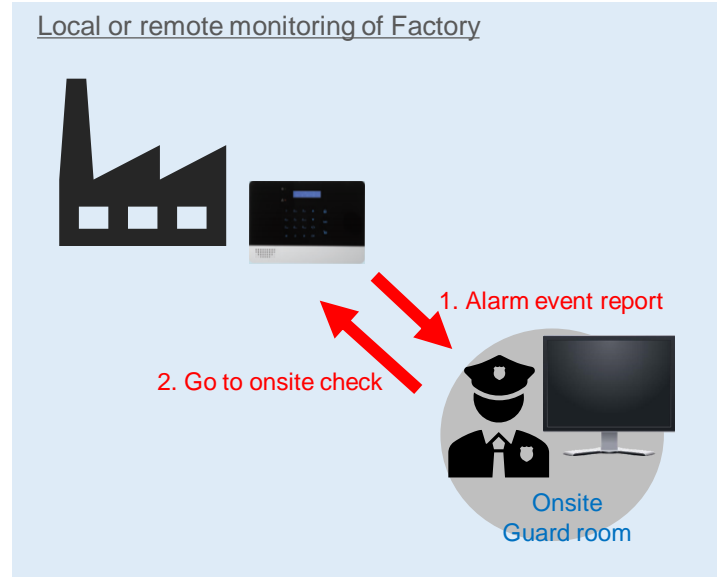

System Configuration

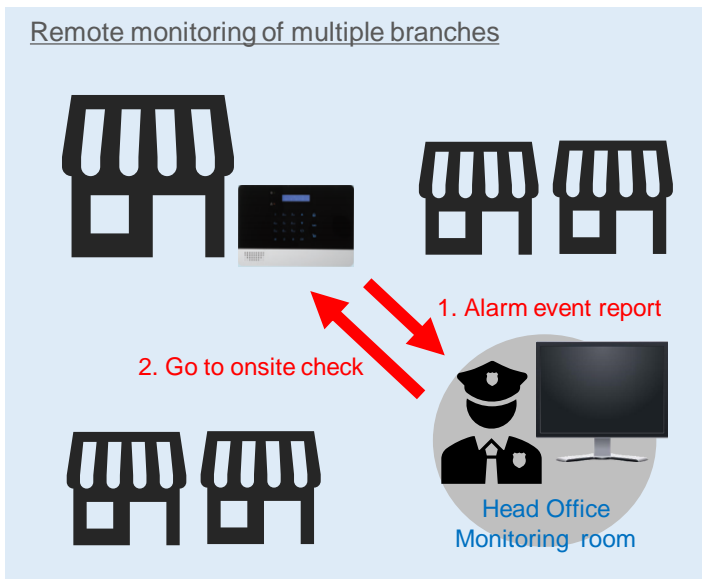

Local monitoring in Gate community

Local or remote monitoring of Factory

Remote monitoring of multiple branches

GENIO Map Specification

Windows	Windows 10 IOT Value *Recommended
Spec CPU speed	i3-i5, LTSB *Recommended
Account	Max 300 *Not limited to this number
Picture Type	JPEG or PNG
Number of Map	Max 8
Receivable Protocol	CID
Log	Past one month
Alarm List	Latest 20 alarms
Cable (Cross Type)	2 set of USB to RS-232 Serial Adapter cable 1 set of RS-232C Cable(Female to Female)

ARN Gateway Specification

ARN Gateway is an IP alarm receiver that receives event reports from GENIO panel and forward the data in the CID or SIA format via RS-232 to central monitoring station.

Power supply	12V 1A DC Adaptor
Backup Battery	Rechargeable 4.8V AA Ni-MH
Reporting Protocol	CID/SIA over IP
Event Log	100
Operating Humidity	-10° C ~ +45° C
Dimensions	186.3mm x 130mm x 30.3mm
